

The Uniqueness of RBIOZYME

1. State of the art research, combination of top Pharma cologists, Professors in Molecular Biology, Experts in Biotechnology from England, German and Japan, together in completion of researching and developing the best quality of Natural Active Enzyme Compounds.
2. Has been ensured 100% purely from plant, stringent in screening of raw materials, ensure no contamination of heavy metals, chemical fertilizers, and assure the three main principles of quality control which are: safe, organic and fresh.
3. Exclusive 'Multi-Native Species Formula' and 'Symbiosis Ferment Technology', convert and create super fine active molecular peptides which are the most appropriate to the function human body.
4. Superior absorption rate (high BV value), maintain the best active compounds which is the benchmark of quality and the best mouth-feeling which is the only one that can stand for high temperature.
5. Completely without chemical formulation, using 100% biotechnology, follow the traditionally natural fermentation method, the whole fermentation process take 120-day of storage.
6. Has been accepted World Wide, and is recognized as a bio-functional standard product.

“ **There Would Not
Be Life Without
Enzymes!!** ”

Nobel Prize In
Chemistry 1997

RBIOZYME

Is Proudly Recognized by

- ▶ Consumer Golden Fascia Award
- ▶ National Enterprise of Excellence Golden Award
- ▶ Republic of China Health Supplement Golden Award

3R BIOZYME

Your Life Force!

Enzymes are proteins and are necessary for ensuring normal body functions, the digestion of food and the repair of tissues. They participate in almost every activity in the body, and even if there are sufficient vitamins, minerals, water and proteins, life cannot be sustained without enzymes.

Enzymes are live proteins made up of more than 20 different types of amino acids. All chemical reactions within the human body require enzymes; activities of all organs, tissues and cells are controlled by enzymes. Even minerals, vitamins and hormones require enzymes of function properly.

Causes of Enzyme Deficiency

- Over-consumption of processed or overcooked foods
- Imbalanced diets and excessive lifestyles
- Alcohol and smoking
- Fevers and colds
- Over-exertion during exercise
- Pollution
- Stress
- Pregnancy
- Obesity

Consequences of Enzyme Deficiency:

- | | | |
|--|---|-----------------------------------|
| Incomplete Digestion of Sugars | ➔ | Pancreatic Problems (Pancreas) |
| Incomplete Digestion of Fats | ➔ | Vascular Problems (Blood Vessels) |
| Incomplete Digestion of Proteins | ➔ | Renal Problems (Kidneys) |
| Improper Management of Fiber & Useful Bacteria | ➔ | Enteritis Problems (Intestines) |

3R BIOZYME

Natural fruit essences, Lactose, Oat, Protease, Amylase, Lipase

7 Benefits of 3R Biozyme

1. **Blood Cleansing Properties:** Improves Detoxification
2. **Promote Digestion:** Aids the absorption of nutrients
3. **Fats Decomposition Properties:** Maintains Health & Slim figure
4. **Anti Aging Functions:** It Boots Metabolic Cell Functions
5. **Anti-inflammatory & Anti-bacterial Properties:** Improve Antibodies to counteract foreign substances, infections & diseases.
6. **Improve Immune System:** Improve tissues self-revitalization
7. **Increase Your Enzymes Level:** Replenishes the depleted enzymes in our body.

Usage Direction :

Pour 1 sachet (10g) of 3R Biozyme into a cup add water or fruit juice or milk for drinking before or after meal.
